Rebooted game and development moving forward:

4XST Shipyard has been rebooted to version .09 and the new version is ready.

See the trailer/instructional video on how to use the new setup here: <https://youtu.be/ipQnh01rgg>

Several changes:

- currently just have English language for interface. More languages will be added as development continues

- Removed connection nodes and added a few more pieces.

- Now place pieces directly without using connection nodes.

- Added mirror/symmetrical placement of pieces on X,Y, and Z axis.

- New GUI

- Bug fixes

What is 4XST Shipyard? Currently just a hull designer.

What are the plans for 4XST Shipyard? Development is moving forward. CWDI GAMES plans to develop 4XST Shipyard into a space sim. More details as that update approaches. For now, however, 4XST Shipyard is just a hull designer. If that's not your cup of tea then keep watching for more features to be added before purchasing.
